CSFC 2-Amino-p-cresol Specification

Chemical Name 2-Amino-p-cresol

Molecular Formula C₇H₉NO

Molecular Weight 123.15

Structure

CAS Number 95-84-1

Specification	Appearance	Yellowish or grayish white powder
	Assay %	98.5 min
	Melting Point °C	133~136°C
	Water Content %	0.5 max
	Ash Content %	0.5 max

Packing 25 kg net/fiber drum

Applications Used as dye intermediates, also used in the preparation of fluorescent whitening agent.
