CSFC OB acid Specification

Chemical Name 2,5-Thiophenedicarboxylic acid

Molecular Formula C₆H₄O₄S

Molecular Weight 172.16

Structure

CAS Number 4282-31-9

Specification	Appearance	Off white to white Powder
	Assay %	99.0min
	Melting Point °C	328~ 330°C
	Volatile Content %	0.5 max
	Ash Content %	0.3 max

Packing 25 kg net/bag

Applications As an important intermediate for the production of fluorescent whitening agents.
